Cyber Security Experience

- ❖ **Live Soc Monitoring(LetsDefend):**
 - Monitored real-time security alerts, performed triage and investigated incidents in a simulated Security Operation Center(SOC) environment.

- ❖ **FIREWALL IMPLEMENTATION AND RULE CONFIGURATION :**
 - Designed and deployed a virtual firewall environment using FortiGate on VMware Workstation.
 - Configured multiple interfaces, firewall policies, and security profiles to control and filter network traffic.
 - Created custom firewall rules to allow, block, and monitor traffic based on IP addresses, ports, and protocols.
 - Conducted testing and troubleshooting of firewall rules to ensure proper traffic control and protection against unauthorized access.
 - Gained hands-on experience in network security policy design, rule optimization, and log analysis for threat detection.

Education

- **BHARATI VIDYAPEETH, Pune, Maharashtra, 411038**
BACHELOR OF COMPUTER APPLICATIONS
Expected graduation Aug 2026
Current SGPA: 7.75

- **Asia Pacific Convent School | India | 2023**
12TH/HSC | Percentage: 63.4%

- **Asia Pacific Convent School | India | 2021**
10th/SSC | Percentage: 73.3%

Additional Skills

- Penetration Testing
- Vulnerability Assessment
- Network Scanning & Enumeration
- **Also have knowledge Of Attacks like Middle Man Attack(MITM), Browser Exploitation. Framework(beEF), Metasploit framework And Other Attacks.**

- Currently Learning Content of CompTIA Security+ certificate.
